Career Objective

Soon-to-be Computer Science graduate passionate about building software solutions. With hands-on experience as an android intern working on Kotlin-based development, I enjoy solving problems and exploring new technologies. Eager to join a dynamic engineering team as a Junior Software Developer, contributing to both mobile and general software development initiatives.

Education

Gandhi Institute of Technology and Management   **August 2022 – May 2026**
Bachelor of Technology in Computer Science   *Hyderabad, Telangana*

Experience

Developers Breach   **January 2025 – July 2025**
Android Intern   *Remote*

- Contributed to the **Kotlin Dictionary** educational Android app for learning Kotlin
  through interactive content and quizzes.
- Refactored UI components for scalability and implemented clean architecture and modular code structure
  across multiple mobile apps.
- Authored 2 technical articles, including *Ktlint–The Ultimate Guide to Kotlin Code Formatting* and *Compose Screenshot Testing with CI/CD integration*.
- Created 10+ interactive Kotlin quizzes to support learners: *Kotlin Quizzes*.

Projects

Learning Curve | *Kotlin, Jetpack Compose, Firebase*, Android Studio   **January 2025**
- Built a course recommendation app that analyzes 500+ Coursera courses.
- Integrated Firebase for authentication, Firestore as the database, and Gemini AI chatbot.
- Applied clean architecture and used Coursera dataset from Kaggle for recommendations.

One Badge | *Kotlin, Jetpack Compose, Firebase, Android Studio*   **August 2025**
- Developed an Android app for football fans to follow their favorite team.
- Implemented an interactive swipe-card UI with animations, gradient themes, and smooth transitions.
- Integrated football APIs using Retrofit for real-time data and Room Database for offline caching of team information.

Technical Skills

Languages: Kotlin, Java, Python, SQL

Technologies/Frameworks: Android SDK, Jetpack Compose, Firebase, GitHub, Figma, Canva

Architecture & Design: Clean Architecture, MVVM

Coursework: DBMS, Computer Networks, Operating System

Leadership / Achievements / Certifications

IITians Chinmay Academy   **January 2021 – January 2022**
Python GUI Developer & Social Media Designer
- Developed a GUI application using Python Tkinter for students where teachers can feed questions through MS Excel.

Google Developer Group On-Campus   **June 2023 – April 2025**
GITAM University, Hyderabad
- **Android Developer (2023–2024):** Won 2nd place in the Internal Smart India Hackathon 2023.
- **Campus Lead (2024–2025):** Organized events on campus and led a team of 20+ developers.

Google Play Store Listing Certification
Completed a course on creating policy-compliant Google Play Store listings to improve app installs and conversions.
